REPORT.

COMPTROLLER GENERAL'S OFFICE,
MILLEDGEVILLE, OCT. 17, 1864.

To His Excellency, JOSEPH E. BROWN, Governor :

In compliance with the requirements of law, I have the honor to lay before your Excellency a statement of the receipts and disbursements of the Treasury, during the fiscal year 1864, commencing on the 16th October, 1863, and ending the 15th October, 1864, showing at the end of the year, a

Cash balance in the Treasury of.....\$2,146,057 62

Good Assets belonging to the State.

Herewith is furnished a statement of the " Assets belonging to the State", as shown by the books of the Treasury and Bompptroller General's offices, viz :

1,833 shares of stock in Bank of State of Georgia.....	\$183 300
190 shares of stock in Bank of Augusta.....	89,000
186 shares of stock in the Georgia Railroad and Banking Company.....	18,600
7,000 shares of stock in the Atlantic and Gulf Railroad Company.....	700,000
Central Bank Assets, estimated by General Bethune, Agent, at.....	1,500
	<hr/>
	\$992,400

Also, the Western & Atlantic Railroad (value not to be put upon the same by the Comptroller or Treasurer). This Road, however, paid into the State Treasury, as net earnings, in 1859, \$420,000 ; 1860, \$450,000 ; in 1861, \$438,000 ; 1862, \$140,000, and in 1863, \$1,650,000.

P16811

Statistics of Taxables, &c., in Georgia in 1864.

As also required, accompanying this report, will be found tables A, B, C, and D, containing the taxable property, and other items on the Tax Digests for the year 1864, for 108 counties—together with table E, containing the polls in each county, for the year immediately preceding this report, the number of voters in each county, at the general election in 1863; the number of children in each county returned for participation in the Educational Fund; the amount drawn by each county for pay of members of the Legislature; the total amount drawn out of the State Treasury by each county exclusive of the Indigent Soldiers Family Fund; the total amount of Tax paid into the State Treasury by each county, on the General Tax, for the year 1863: and the total amount of General Tax levied in each county for the year 1864.

Table "A" contains the number of Acres of land, its total value, and its average value per acre in each of the counties named of the State for 1863 and 1864. It will be seen that the average value of land per acre in 1864, throughout these 108 counties, is \$10.95 against \$5.84 in 1863.

Table "B" contains the number of slaves, their total value, and average value, in each of the counties named for 1863 and 1864. It will be seen that the average value of slaves throughout these 108 counties in 1864, is \$1761.42 against \$908.13 in 1863.

Table "C" contains the number of polls, professions, free persons of color, children between 6 and 18 by parents and guardians; number of hands employed between 12 and 15, 15 and 55, 55 and 65; value of City and Town property; amount of money and solvent debts; and value of merchandise returned on the Tax Books for 1863.

Table "D" contains the amount of shipping and tonnage, stocks, manufactures, &c., household and kitchen furniture; value of property not enumerated; total property in 1863 and 1864, and increase of returns of 1864 over 1863.

That the Legislature may also see how horses, mules, oxen, stock cattle, stock hogs, sheep, goats, &c., are returned in the different counties in the State; table "F" will show the average value at which these items have been returned, forwarded according to the best of their recollection by the various Receivers of Tax Returns. And that the Legislature may approximate to the number of tax payers, who held property under the value of \$2,000 in 1863 and for other uses of the Legislature, table "G" is furnished. Table "H" shows the number of beneficiaries in each county, participating in the fund for the support of the Indigent Soldiers Families.

110219

In consequence of the enemy having overrun, and being contiguous to many counties in upper Georgia, the counties of Bartow, Campbell, Catoosa, Chattooga, Cherokee, Cobb, Dade, Fannin, Floyd, Forsyth, Gilmer, Gordon, Milton, Murray, Paulding, Pickens, Polk, Walker and Whitfield have made no returns and none can be expected until the enemy leave that section of the State. The counties of Monroe and Stewart sent up returns, but they were so deficient, your Excellency rejected the same and ordered the returns to be taken over again. The returns from the counties of Burke, Charlton and Pierce, have been delayed in consequence of vacancies in the office of Receiver of Tax Returns in these counties, and the new Receivers not having had sufficient time to make their returns, in time for these tables. In these tables, then, for the year 1864, only 108 counties are included.

By the following condensed statement of these 108 counties, it will be seen that the total value of property returned in 1864 is \$1,612,592,806 against \$840,041,127, in the same counties in 1863, showing an increase of \$772,551,679 or an increase of about 91 per cent.

Statement showing the Total Value of various items of Taxation in 108 counties of the State in the years 1863 and 1864, and also the increase and decrease in the different items of Taxation since 1863.

Property subject to taxation	Value	Value in 1864	Increase.	Decrease.
Land, value of,	\$15,704,556	\$283,620,556	\$130,004,612	
Slaves, value of,	37,048,357	762,105,357	482,625,580	
City and Town property,	51,338,357	91,338,357	42,631,551	
Money and Solvent debts,	112,373,796	137,644,173	25,373,796	
Merchandise,	52,373,796	99,565,692	46,986,963	
Shipping and Tonnage,	6,927,315	2,927,315	2,251,715	
Stocks, Manufactures, &c.,	16,320,481	23,320,481	7,050,481	
Household & kitchen furniture	4,194,690	14,117,649	10,222,690	
Other prop'ty not mentioned	66,110,332	191,642,549	128,502,197	
	\$840,041,127	\$1,612,592,806	\$772,551,679	
No. of Polls,	52,764	39,863		13,101
“ Professions,	1,411	1,361		50
“ Dentists,	41	38		6
“ Daguerrean Artists,	33	22		11
“ Free persons of color,	1,053	878		175
“ Acres of land,	26,808,861	25,892,569		2,916,292
“ Slaves,	417,468	432,660	15,198	
“ Children by parents,	98,921	92,837		6,034
“ “ guardians	3,204	4,585	1,381	
“ Hands employed—				
Between 12 and 15,	34,561	34,346		215
“ 15 and 55,	160,964	166,127	5,163	
“ 55 and 65,	11,161	11,799	638	
No. of Sheep,		417,965		
“ killed by Dogs,		31,046		
“ Dogs,		81,423		

By the above exhibit, it will be seen that slaves have been returned at an increased value of about 100 per cent, land 81 per cent, City and Town property 82 per cent, money and solvent debts 22 per cent, merchandise 90 per

6 PART I—COMPTROLLER GENERAL'S REPORT.

cent, (in merchandise is included cotton not belonging to the original producer,) shipping and tonnage 333 per cent. Stocks, manufactures, &c., 43 per cent. Household and Kitchen Furniture 220 per cent. and other property not enumerated 193 per cent. In this item, too, cotton not belonging to the original producer may be included. The decrease in the number of polls, professions, free persons of color, &c., is no doubt caused by persons going into the army, all of whom owning less than \$1,000 not being taxable.

An abstract from the books of this office, as required by law, setting forth the amounts of the several appropriations, both common and special, under their respective heads, the dates and amounts of warrants, in whose favor drawn, and the balance undrawn of such appropriations. Also, as required, a table will be found, showing the amount of taxes that the inhabitants of each county in the State stand charged in the Digests returned to this office by the several Receivers of Tax Returns for the year 1864; from which it appears that the General State Tax assessed in accordance with the Act of the 12th December 1864, amounts in 108 counties, to \$15,924,255,76, which will be increased to over \$16,000,000, by returns from Monroe, Stewart, Burke, Charlton and Pierce.

Receipts and Disbursements at the Treasury for the Fiscal year 1864.

Of the receipts into the Treasury for the fiscal year 1864, there was received :

From General Tax, 1863.....	\$ 1,505,707 05
“ Income Tax, 1863.....	455,593 98
“ General State & Income Taxes 1864	767,839 43
“ General Tax 1860.....	15 00
“ “ “ 1862.....	152 13
“ Tax on Banks.....	302,004 51
“ “ Rail Roads.....	14,348 89
“ “ Foreign Insurance Companies,	8,635 11
“ “ “ Bank Agencies....	506 86
“ Net earnings Western & Atlantic Railroad.....	235,000 00
“ Dividend on Atlantic & Gulf Railroad Stock.....	56,000 00
“ Dividend on Bank Stock	37,285 00
“ “ Insurance Stock.....	121 39

“ Georgia Relief and Hospital Association.....	500,000 00
“ Clerk House of Representatives,	5,110 00

8 PART I—COMPTROLLER GENERAL'S REPORT.

On account Secretary of Senate.....	3,500 00
For Bank Note Paper, Engraving and Printing and Clerk hire, &c., in issuing Georgia Treasury Notes and Change Bills.....	59,399 26
On account of Steam Ship Fund.....	214,855 40
" Salt Fund—.....	100,000 00
" Cotton Cards—for purchase of..	1,000,000 00
" Cotton and Wool Cards—Purchase of material to make....	59,228 35
" Corn Appropriation—Act of Nov. 26, 1863.....	575,000 00
" Corn Appropriation—Act of M'ch 21, 1864.....	515,000 00
" Henningsen Hospital.....	5,000 00
On Account of other miscellaneous appropriations, which will be seen in an Abstract accompanying this Report.....	54,077 62

Total..... \$13,288 435 94

Leaving a balance in the Treasury of.. \$2,146,087 62

Having thus exhibited the operations of the Treasury for the past twelve months, I have deemed it not inappropriate to allude to, and make an approximation to the ordinary receipts and expenditures of the ensuing fiscal year. The anticipated receipts into the Treasury for the fiscal year 1865, may be stated as follows :

From General State & Income Taxes of 1864, \$16,000,000 00	
" Tax on Banks.....	200,000 00
" Tax on Railroads.....	15,900 00
" Tax on Foreign Insurance Companies	9,000 00
" Dividend on A. & G. R. R., Stock..	56,000 00
" Dividends on Bank Stock.....	30,000 00
" To be refunded on Corn Appropriation made by Act of 21st March 1864.....	515,000 00
" Miscellaneous.....	20,000 00

\$16,845,000 00

Add to this the balance in the Treasury

October 15, 1864,..... 2,146,087 62

And we have a total of..... \$ 18,991,087 62

As the enemy are now at Atlanta, the Eastern terminus of the Western & Atlantic Railroad, and as Gen. Hood is in their rear, on that Road, destroying it so as to prevent its use for sometime to come, I have deemed it safest not to calcu-

late upon any income from it, in this estimate. I have, however, included in the above estimate, the return of the \$515,000, drawn on the Corn Appropriation, made by the Act of the 21st March, 1864, because the Act making said Appropriation provides, that, the Corn purchased with this money shall be paid for on delivery by the Justices of the Inferior Courts of the several counties to which the same may be furnished—the Courts paying “the cost of said corn and freight thereon”—and “that the money received from the several counties for said Corn shall be paid into the Treasury by the said Quartermaster General”. I have not included in this estimate any return from the \$1,000,000 Appropriation made to purchase Cotton to ship to Europe to buy Cards, because, in consequence of the Blockade, the difficulties in shipping the Cotton and importing the Cards are such, that no reliable estimate as to the result of the same can be made—and any proceeds from the same cannot and ought not to be relied upon to support the Government for the ensuing Fiscal Year. Neither have I included in the above any return from the Salt Fund, because it is presumed the ensuing Legislature will continue the Appropriations during the war, to enable your Excellency to aid the people of the State in obtaining their necessary supply of Salt.

The demands upon the Treasury for the same year, on account of Appropriations undrawn, the redemption of Treasury Notes due 25th December next, and the usual ordinary appropriations of the year, may be stated as follows:

To pay Appropriations undrawn.....	5,338,166 53
“ Redeem Treasury Notes due 25th Dec. \$100,000 00	
“ Redeem mutilated State Change Bills, 100,000 00	
“ Pay Members and Officers of the Legislature	70,000 00
“ Civil Establishment.....	80,000 00
“ Contingent Fund.....	50,000 00
“ Printing Fund.....	40,000 00
For Reduction of Public Debt past due..	216,000 00
“ “ “ “ “ coming due	18,000 00
“ Interest on Public Debt, past due....	668,186 00
“ “ “ “ “ coming due..	387,390 00
“ Support of Pauper Patients of Lunatic Asylum	120,000 00
“ Salary of Superintendent of Lunatic Asylum.....	2,500 00
“ Pay of officers and Servants of Lunatic Asylum.....	20,000 00
“ Support of the Academy for the Blind,	12,000 00
“ Georgia Military Institute—For support of Cadets.....	2,000 00
For Georgia Military Institute—Salary of Superintendent	3,000 00

10 PART I—COMPTROLLER GENERAL'S REPORT.

" Salary of Military Storekeeper at Mill ledgeville.....	900 00
" Educational Fund.....	160,520 00
" Subscription to Atlantic & Gulf Rail- road.....	50,000 00
" Miscellaneous Appropriations.....	50,000 00
	<hr/>
	\$15,581,662 53
Leaving a balance in the Treasury of....	\$3,409,425 09

In the above it will be seen that I have only included the undrawn appropriations, and the ordinary appropriations, without reference to the appropriations necessary on account of the existing war. If the ensuing Legislature makes the same appropriations this year, that it did last year, for the support of Indigent Soldier's Families, Clothing Soldiers, for the Georgia Relief and Hospital Association, and for Military purposes, the following may also be added, viz :

For Indigent Soldier's Families.....	\$ 6,000,000 00
" Military Fund.....	3,000,000 00
" Soldiers Clothing Fund.....	2,500,000 00
" Georgia Hospital & Relief Association, ..	500,000 00
	<hr/>
	\$12,000,000 00

Which sum (less \$3,409,425 09) will have to be provided for in the way of taxation or loan, or further issue of Treasury Notes or sale of State Bonds.

THE PUBLIC DEBT—IN BONDS AND TREASURY NOTES.

Through the courtesy of John Jones, Esq., State Treasurer, I am enabled to furnish the following statement of the present indebtedness of the State, in Bonds, viz :

Due in 1862, 7 per cent. Central Bank Bonds	\$ 22,500
" 1863, 7 " " " "	53,500
" 1864, 7 " " " "	40,000
" 1862, 7 " for W. & A. R. R.	25,500
" 1862, 6 "	18,000
" 1863, 6 "	40,500
" 1865, 6 "	18,000
" 1868, 6 "	176,500
" 1869, 6 "	262,500
" 1869, 5 "	72,000
" 1870, 6 "	134,500
" 1871, 6 "	153,750
" 1872, 6 "	623,500

Due in 1872, 7 per cent. now redeemable.....	100,000
“ 1873, 6 “	169,500
“ 1874, 6 “	75,000
“ 1874, 7 “	176,500
“ 1878, 6 “	100,000
“ 1879, 6 “	200,000
“ 1880, 6 “	200,000
“ 1881, 6 “	100,000
“ 1881, 6 “	25,000
“ 1881, 7 “	842,500
“ 1872, 7 “ War Tax.....	2,441,000
	<hr/>
	\$6,070,250
And due in 1859, probably paid.....	6,000
“ “ “ 1861, “ “	10,000
	<hr/>
	\$6,086,250

It will be seen that \$6,000 Central Bank Bonds due in 1859, and \$10,000 of similar Bonds, due in 1861, have not been presented for payment—at all events, they are not marked paid in the Bond Book. But, as the State has for several years past, at different times, redeemed Bonds not due, it is possible these Bonds may have been paid, and the fact of payment omitted to be entered on the Bond Book. But, if paid, they are sealed up in packages, in the Treasury office, which neither the Treasurer or Comptroller General can open without authority from the Legislature.

It will thus be seen that the State is now indebted in Bonds to the amount of \$6,086,250—\$216,000 of which being past due, are not paying any interest. The remaining Bonds now out are paying an annual interest of \$387,390, viz: \$3,529,500 7 per cent. Bonds, \$247,065 00; \$2,278,750 6 per cent. Bonds, \$136,725 00; and \$72,000 5 per cent. Bonds, \$3,600 00; which amount of interest will be reduced each year as the Bonds become due or are redeemed.

The amount now due and coming due, during the fiscal year 1864, is \$234,000, but whether all will be presented within that time is questionable, as some of them are no doubt in the Northern States, and in Canada, and may not be presented until after the close of the war.

In addition to this debt of the State in Bonds, she also owes \$6,993,000 in Treasury Notes and \$1,395,000 in Treasury Certificate of Deposit, lately issued for 8 and 6 per cent. Treasury notes, that bear no interest. Neither are they fundable or redeemable until six months after a treaty of peace. It is true a portion of them are redeemable “six months after a treaty of peace, or when the Banks of Savannah and Augusta resume specie payments, if before that time,” yet, as it is not at all probable that the

12 PART I—COMPTROLLER GENERAL'S REPORT.

Banks of Savannah and Augusta will resume specie payments before that time, it may be said that none of the Georgia Treasury Notes, or Treasury Certificates of Deposit issued for the same, are fundable or redeemable until six months after a treaty of peace. The State also owes, in Confederate Treasury Notes, for \$1,411,442 00 State Change bills, lately issued, and also for \$8,095,000 Treasury Notes issued a few months back to meet the appropriations of the last Legislature, but which are to be redeemed out of the taxes of 1864, now being collected. The Public Debt of Georgia, therefore, at this time, is as follows:

Bonds, bearing interest.....	\$5,870,250 00
Bonds, not bearing interest.....	216,000 00
State Treasury notes not bearing interest..	6,993,000 00
State Treasury Certificates of Deposit, not bearing interest.....	1,395,000 00
State Change Bills, not bearing interest..	1,411,442 00

\$15,885,692 00

To which may be added the \$8,095,000 of Treasury Notes payable in new issue of Confederate Treasury Notes—which, if not presented before the 25th of March next, are “not redeemable except in payment of public dues,”.....	8,095,000 00
---	--------------

Making total.....\$23,980,692 00

To pay this interest and meet the Debt as it becomes due (the \$8,095,000 of Treasury Notes due on the 25th December being already provided for,) Georgia has not only her taxable wealth, worth in specie currency \$700,000,000 or \$800,000,000, but she has also the following public property, which, if sold at any time after the resumption of specie payments, would pay more than two-thirds of this debt (after the \$8,095,000 is taken up by the taxes of this year,) leaving but a very small debt to be hereafter paid by taxation. Her Public Property is as follows:

7,000 Shares of Stock in the Atlantic and Gulf Railroad.....	700,000 00
20,909 Shares of Stock in several Banks..	290,900 00
Also, her Western & Atlantic Railroad, which has been paying into the State Treasury since 1859 between 6 and 7 per cent. upon \$7,000,000, and paid into the Treasury in 1863, before the enemy got possession of it, \$1,650,000, and which, before the rise of all kinds of property, was valued by a committee of the Legislature at.....	7,849,224 68

\$8,840,124 68

As about \$9,000,000 of this debt has been created by the State during the war, for her military defense, and for assisting in clothing the soldiers of the Confederacy from Georgia, the amount thus necessarily spent will no doubt, at some future day, be assumed and be refunded by the Confederate States Government. But whether this be done or not, if the State is not forced to increase her Debt further for war purposes, even with *one fourth of our present tax* (or 25 cents on the \$100), and with the net annual incomes from our Railroads; we can go on and defray the ordinary expenses of our State Government, and be liberal towards Education, our Lunatic, Blind and other benevolent institutions, and pay our debt promptly; and could thus pay the whole of it in about half the time some of it is due, without the State's selling one dollar of her Public Property.

THE EDUCATIONAL FUND, 1864.

By an Act, approved January 22, 1852, the dividends arising from the stock belonging to the State in the Bank of the State of Georgia, the Bank of Augusta, and the Georgia Rail Road and Banking Company, were "set apart as a permanent fund for the education of the *poor*." This fund was distributed as a "Poor School Fund" up to 1858. By an act of the 11th Dec. 1858, the manner of the future distribution of this fund was changed. This Act annually appropriated \$100,000 of the net earnings of the Western & Atlantic Rail Road "TO THE PURPOSES OF EDUCATION"—the Bank Dividends before used as a Poor School Fund was added to the same, and these two sums were directed to be "divided out among the several counties, according to the return of *all white children* thereof between the ages of 8 and 18." (This Act was amended in 1859, requiring the same to be divided among children between 6 and 18.) The Act of 1858 also provides, that in addition to the sums above specified, whenever the Governor redeemed any portion of the Bonds of the State then outstanding, he is to issue, in lieu of the same, other Bonds to be deposited with the Secretary of State as the Trustee for the Educational Fund of Georgia, and the interest on the same at 6 per cent. per annum, is to be annually added to this Fund and be distributed. The issue of these Bonds to go on from year to year, in proportion to the amount of the Public Debt redeemed, until the whole debt (amounting in 1858 to \$2,627,000) is paid off. At which time, in addition to the \$100,000 from the Road, and the Bank Dividends, the whole interest of this \$2,627,000, amounting to \$157,620 00 annually is to be added to the fund. In addition to these sums, the Governor is authorized an-

usually to add any surplus that may be in the Treasury at the time the apportionment is made.

Up to October, 1863, however, only \$397,250 00 of the Public Debt in Bonds had been redeemed, since the passage of the Act of 1858, and therefore, the condition of this Fund for this year stands as follows:

From Bank Dividends.....	\$ 37,285 00
From interest on \$387,750 Public Debt, re- deemed.....	23,235 00
From Western & Atlantic Railroad.....	100,000 00
	<hr/>
	\$160,520 00

THE GENERAL STATE AND INCOME TAXES FOR 1864.

Although the returns of taxable property on the Tax Books, are almost double in value to what they were last year, yet as the last Legislature appropriated about \$17,000,000, and required the Governor and Comptroller General "in assessing the tax for the ensuing year, to assess and have collected such per cent as shall be sufficient to raise an amount of money, added to the other resources of the State, to support the government for the political year 1864; *provided*, that the amount raised shall not exceed one per cent upon the value of the taxable property of the State, estimated in Confederate Treasury Notes," your Excellency and the Comptroller General felt it to be their duty in levying the General State Tax to go to the limit authorized by law.

Had there been no invasion of the State, and all the counties had made returns similar to those from which returns have been received, the per cent would have been less, but as twenty-one counties have made no returns at all, and none are expected from them this year, and as several, whose returns have been received, have since been overrun by the enemy, your Excellency thought it questionable whether or not sufficient tax could be raised, at the one per cent, to meet all the appropriations, if called for. It is true that the levy for the General State Tax will exceed \$16,000,000 and the tax returned on account of Profits and Incomes will exceed \$3,000,000, amounting in all to over \$19,000,000, yet the expenses of collection, &c., is to come off, and by reference to the tables presented in this Report, it will be seen that there are about \$2,000,000 or more of tax due in counties now within and contiguous to the enemy's lines, that is not likely to be collected shortly. Under these circumstances, then, and as we have received no revenues from the Western & Atlantic Rail Road for

several months past, even if the enemy make no further advance, and even though the tax levied this year be heavy, I think we shall be fortunate if the State realizes enough tax from the levy this year to pay the appropriations of the last Legislature.

SALARIES AND PAY OF OFFICERS OF THE STATE.

As the 97th section of the Code requires the Comptroller General in his Annual Report to give "the salaries and pay of all officers of the State," I respectfully submit the following statement of the same, gathered from the statutes and furnished me by the Heads of the Departments:

Executive Department.

	Salary per annum.
Governor,	\$4,000 00
2 Secretaries of Ex. Dept. each,	2,500 00
Recording Clerk, do	2,500 00
Messenger Executive Department,	600 00

Secretary of State.

Salary,	3,000 00
---------	----------

Comptroller General.

Salary,	3,000 00
1 Clerk,	2,500 00

State Treasurer.

Salary,	3,000 00
1 Clerk,	1,600 00

There are also employed under the superintendence of the Treasurer and Comptroller General, eight Clerks, at \$150 per month, for the purpose of preparing State Change Bills and Treasury Notes for issue—numbering, stamping, trimming, registering, and signing the same for Treasurer and Comptroller General.

State Librarian.

Salary,	1,000 00
---------	----------

Captain and Guard at State House.

Pay of	2,400 00
--------	----------

Military Storckeeper at Milledgeville.

Salary of	900 00
-----------	--------

Compiler of Laws.

Salary of, for each session,	500 00
------------------------------	--------

Judiciary.

Judges of the Supreme Court, each,	3,500 00
Reporter of the Supreme Court,	1,000 00
Judges of the Superior Courts, each,	2,500 00
Solicitors General, each,	225 and fees.
Attorney General,	225 and fees.

The Legislature.

The President of the Senate and Speaker of the House of Representatives, receive \$10, and the other members \$6 for each day's attendance, and all are allowed \$5 for every twenty miles of travel going to and returning from the seat of Government, the distance to be computed by the direct mail route, if any, and if none, by the direct land route usually traveled.

The Secretary of the Senate receives \$37 50 per day during the session, as full compensation, and he is to "employ and pay out of said sum the Engrossing, Enrolling, and all other Clerks and Assistant Clerks necessary to discharge promptly and properly all the duties of Secretary and Clerk in the Senate."

The Clerk of the House of Representatives receives \$100 per day, during the session, as full compensation, out of which he is to employ all the necessary Clerks required, as stated, relative to the Secretary of the Senate.

By the 178th section of the Code, it is provided that each House is entitled to a Door Keeper and Messenger, "who shall receive the same pay as the members of the General Assembly."

Lunatic Asylum.

Statement of employees of the State Lunatic Asylum, Trustees, Officers, Attendants, &c.

Lunatic Asylum.

Trustees, (three) each,	\$ 100 00
Superintendent and resident Physician,	2,500 00
Assistant Physician,	1,250 00
Apothecary,	500 00
Treasurer,	200 00
Steward &c.,	900 00
Assistant &c.,	600 00
Engineer &c.,	1,650 00
Gardener &c.,	500 00
9 Male Attendants,	500 00
2 do do each,	400 00
10 Female do do	300 00
20 Male servants each,	200 00
1 do do do	150 00
1 do do do	100 00

Georgia Penitentiary.

Principal Keeper,	2,500 00
Assistant Keeper,	1,360 00
Book Keeper,	1,360 00
Inspector,	500 00
Physician,	600 00
Chaplain,	200 00
Foreman of Shoe shop,	1,200 00

Georgia Penitentiary.—Continued.

Foreman of Tannery,	1,200 00
do Car shop,	800 00
do Blacksmith shop,	800 00
do Brick work and Building,	800 00
do Wagon shop,	800 00

Commissary, 1,500 00

Capt. of Guard, \$53 33 per month and rations

Guard, each, \$1 33 per day do do

State Armory.

Chief of Ordnance, \$1,944 00

Master Armorer, 2,500 00

Clerk, 1,000 00

State Card Factory.

Superintendent, 1,500 00

Salesman—duties performed by Book keeper of Penitentiary, 600 00

Receiver of hides and leather—duties performed by Foreman of Wagon shop, 240 00

Western and Atlantic Rail Road.

Superintendent, 5,000 00

Treasurer, 3,750 00

Auditor, 3,500 00

Master of Transportation, 4,500 00

Passage Clerk, 2,750 00

Principal Book Keeper, 4,000 00

Adjutant and Inspector General's Office.

Adjutant and Inspector General, 3,000 00

4 Clerks, each, 1,500 00

Quartermaster General's Office.

Pay per month.

Salary of Quartermaster General, \$185 00

8 Assistant Quartermasters, each, 140 00

1 Military Store Keeper, 125 00

1 Clerk, 150 00

Commissary General's Office.

Pay per month.

Commissary General, \$185 00

9 Assistant Commissaries, each, 140 00

4 Acting Assistant Commissaries, 140 00

2 Clerks, each, 150 00

Georgia Military Institute.

Salary of Superintendent, \$3,000 00

Post at Milledgeville.

Pay per month.

Post Quartermaster, \$140 00

" Commissary, 140 00

Garrison Quartermaster,	140 00
Quartermaster for Cadets,	110 00

In addition to the pay above stated, the Quartermaster General and Commissary General, and the Assistant Quartermasters and Commissaries, each receive pay in money for Quarters and Fuel, which varies with the seasons, and the place to which the officer is assigned. No officer is entitled to commutation unless on duty at a Post.

Georgia State Troops—2 Regiments.

	Pay per year.
2 Colonels, each,	\$ 2,340 00
2 Lieut. Colonels, each,	2,040 00
2 Majors, each,	1,800 00
2 Surgeons, each,	1,800 00
2 Assistant Surgeons, each,	1,560 00
2 Quartermasters, each,	1,560 00
2 Assistant Quartermasters, each,	1,560 00
2 Commissaries, each,	1,560 00
2 Assistant Commissaries, each,	960 00
2 Adjutants, each,	1,200 00
20 Captains, each,	1,560 00
20 1st Lieutenants, each,	1,080 00
20 2nd " " "	960 00
20 Ensigns, each,	960 00

As the Militia are now only temporarily in the field, the number of officers of the Militia, and their pay are not given.

THE \$6,000,000 APPROPRIATION FOR THE SUPPORT OF INDIGENT SOLDIERS' FAMILIES.

Accompanying this Report will be found a table showing the number and classes in each county, of the beneficiaries of this fund; and also the amount apportioned to each county.

The Act required the returns of the Justices of the Inferior Courts to be made by the first day of February, and the Comptroller General was directed at the same time to proceed to the consolidation of the returns of the several counties, and when finished, in connection with your Excellency, to make the apportionment. But on the 1st of February, not one-third of the counties had made their returns, and it was not until the latter part of March that a sufficient number had made returns to authorize an apportionment. The counties of Catoosa, Chattooga, Dade, Murray & Walker, not having made any returns, and as the increased number of beneficiaries in the 128 counties received was about 40 per cent, to ensure these counties their full share, in making the apportionment forty per cent was allowed as the increase upon the return of last year,

and the amount thus coming to them was apportioned, subject to be distributed in accordance with their returns when received. After the apportionment was made, Murray and Walker made returns, but as the increased number of beneficiaries was not equal to that of other counties, the amount apportioned was reduced, which left \$31,641 unapportioned. The returns from these other counties may leave a farther sum unapportioned, if any returns should ever be received from these counties. But as these counties are now in the enemy's lines and no call has yet been made for any of this fund, the presumption is that none will be made. If a call were made by these and other counties, now within the enemy's lines, it is doubtful whether a proper distribution could or would be made. The beneficiaries reported this year having amounted to 117,889 against 83,628 last year, notwithstanding the appropriation was more than doubled this year, of what it was last year, beneficiaries receive only a fraction over fifty dollars, each.

THE ISSUE OF TREASURY NOTES, AND CHANGE BILLS AND TREASURY CERTIFICATES OF DEPOSIT.

Since my last Annual Report, there have been issued, to meet the undrawn balances of 1863, and the appropriations of the last Legislature, \$800,000 of Treasury Notes of the old issue, \$737,782 00 State Change Bills, and \$8,095,000 of the new issue of State Treasury Notes of the denomination of \$500's, \$100's, \$50's, 20's, \$10's, and \$5's, amounting in all to the sum of \$9,732,782 00

In consequence of the act of Congress, of the 17th February last, taxing the old issue of Confederate Treasury Notes 33½ per cent, after the 1st of April last, your Excellency deemed further legislation proper, if not necessary, before our Treasury Notes, payable in Confederate Notes, as authorized by the Act of the 12th Dec. 1863, were issued, and as the extra session of the Legislature did not meet until the 10th of March, and it did not pass its joint resolution prescribing the form of said notes, until the 17th of the same month, our Engraver was not able to have them ready for issue until about the 6th of April.

It having been the intention of the Legislature to "pay as we go" and it having authorized and required enough tax to be levied this year, to redeem these Notes, as well as pay the other appropriations it made, and fearing that unless some limit was stated at which the Notes should be presented for redemption, but few would be brought in at the end of the year, by joint resolution, it adopted the following form for this class of Notes, viz:

"THE STATE OF GEORGIA will pay the bearer——dollars at her Treasury on 25th December next, in Confederate Treasury Notes issued after the 1st of April 1864, if presented within there months after maturity, otherwise not redeemable except in payment of Public Dues."

Such is the avidity with which capitalists and the farming classes desire to hold Georgia securities, that, notwithstanding this effort of the Legislature to force the redemption of these notes, shortly after maturity, yet I doubt much whether half of them will be brought in for redemption by the 25th of March next. It is true, that, after the 25th of March next the State is not bound to redeem them in Confederate Treasury Notes or Currency, yet as they are now being received for Taxes and all Public Dues, and will always be good for Taxes and freight and passage on the Western & Atlantic Rail Road, and good for other Public Dues, many will prefer and will hold them even after the 25th of March next. This is my prediction.

There are now four classes of State Treasury Notes issued.

The 1st class, issued in 1862, were made payable in "Eight per cent Bonds, or Specie, six months after a Treaty of Peace, or when the Banks of Savannah and Augusta resume specie payment, if before that time."

The second class, issued in 1863, were made payable in "Specie or Six per cent Bonds, of this State, six months after a Treaty of Peace shall have been ratified between the United States and the Confederate States."

The third class, or State Change bills, issued in 1863 and 1864, are simply made payable "in Confederate Treasury Notes when presented in sums of five dollars and upwards."

And the fourth class, or new issue, are made payable as above directed by the last Legislature.

The two first classes of these notes, having ceased to circulate, from the fact that capitalists and others preferred to hold them as investments, and application having been made to the Legislature to authorize the Treasurer and Comptroller General to issue Treasury Certificates of Deposits, for the redemption of the same, that body passed an Act, requiring the State Treasurer "upon presentation" to him of five thousand dollars, or any larger amount, of these Treasury Notes, to issue to the holder, Treasury Certificates of Deposit for the same, in sums of not less than \$5,000—*said Treasury Certificates to be made payable in the same manner as is expressed on the face of the Treasury Notes thus cancelled.*" Said Treasury Certificates of Deposit were directed to be registered in the Comptroller General's office and countersigned by the Comptroller General, and the Notes received for said Certificates were directed to be cancelled on the books in the Comptroller General's office, and

afterwards be burned in the presence of your Excellency. Up to this time \$975,000 00 of what are called the 8 per cents, and \$420,000 00 of the 6 per cent Notes, have been thus redeemed and cancelled, and Treasury Certificates, in sums of \$5000, \$10,000 and \$20,000, issued for the same—and the Notes have been burned in the presence of your Excellency, as the minutes in the Executive Department will show.

The following statement will show the total amount of outstanding Treasury Notes, Certificates of Deposit and Change bills (except what may now be in the Treasury) issued by the State, viz:

8 per cent Treasury Notes,	- - - - -	\$ 2,613,000
“ “ “ “ Certificates,	- - - - -	975,000
6 “ “ “ Notes,	- - - - -	4,380,000
“ “ “ “ Certificates,	- - - - -	420,000
Change bills payable in Confederate Tr'y Notes,		\$1,411,442
Treasury Notes, “ “ “ “ “		8,095,000
		<hr/>

BANK REPORTS IN 1864.

Believing that a condensed statement of all the Bank Reports for 1864, will be useful to the Legislature, accompanying this report will be found a table marked “J” containing the reports in full (in a condensed form) of all the Banks of this State, made in response to the call of your Excellency in June last. The following is an abstract from said table and also an abstract of a, similar table compiled in 1863.

22 PART I—COMPTROLLER GENERAL'S REPORT.

LIABILITIES OF THE BANKS.

	1863.	1864
Capital Stock,	\$17,333,832	\$17,131,382
Notes of Banks in circulation,	15,572,542	15,135,680
Deposits,	25,101,848	2,833,928
Due to banks and others,	5,276,971	231,430
Dividends unclaimed,	977,103	429,379
Reserved Fund,	5,106,025	6,064,176
Miscellaneous.	1,341,682	2,990,779
Total,	\$70,713,048	\$44,816,979

ASSETS OF THE BANKS.

	1863.	1864.
Notes Discounted,	\$11,637,540	\$3,994,467
Bills of Exchange,	1,607,530	466,920
Confederate State Bonds,	3,528,616	6,207,227
Georgia State Bonds,	1,359,950	1,287,500
Georgia Treasury Notes,	1,260,747	1,524,042
Confederate Treasury Notes,	21,928,371	7,613,305
Bills of Georgia Banks,	1,100,068	938,372
Bills of Banks of other States,	92,750	73,117
Sterling Exchange,	6,596	12,353
Due from other Banks,	5,847,363	386,586
B'ds & stocks of States & Corpo's,	8,104,026	7,962,467
Miscellaneous,	11,527,179	12,348,198
Real Estate &c.,	764,014	707,778
Specie, bonafide the prop'ty of Bk's	1,498,118	1,294,529
Total,	\$70,713,048	\$44,816,979

In the above statement of liabilities the Central Railroad and Georgia Railroad and Banking Companies have returned as their capital stock, their Railroads and appurtenances, as said Roads are responsible for their Banking operations—although the first only uses as a banking capital \$300,000 and the latter \$500,000. Therefore, in giving them credit for their Assets, I have classed their Railroads, &c., as “miscellaneous.” “Advances on Cotton,” “special loans,” &c., of other Banks, have also been classed “Miscellaneous.” Fractions in cents have in all cases been dropped, as immaterial, the object of this statement being merely to give the general condition of the Banks when their last reports were made.

THE NUMBER OF SHEEP—THE NUMBER OF SHEEP KILLED BY DOGS, AND THE NUMBER OF DOGS IN THE STATE.

The last Legislature in 1863 having passed a Joint Resolution directing the Receivers of Tax Returns in the several counties in this State, to require Tax Payers to give in to them, and to enter on their Digests, the number of sheep owned by the tax payers at the time of giving in their taxes, the number of Sheep destroyed by Dogs within the last twelve months, and also the number of Dogs on their premises, by reference to table 'P' in this Report, returns from 108 counties will be found. It will be seen that in these 108 counties there are 447,965 Sheep.—that 31,046 Sheep were killed by Dogs in these counties within the last twelve months from the time these tax payers gave in—and that the number of Dogs on their premises is 81,423. From the small number of Dogs returned, and as I learned from some of the Tax Receivers that some persons were backward in returning their Dogs, fearing they would be taxed, I doubt much whether all the Dogs in these counties were returned by the tax payers.

AMENDMENTS TO THE REVENUE LAWS..

It having been, by law, made the *duty* of the Comptroller General to "*suggest in his Annual Report such improvements in the Revenue laws as his experience and observation may approve,*" I would respectfully submit the following for the consideration of your Excellency and the Legislature.

The General inequality of Taxation at this time.

While there is no fairer or better mode of levying and collecting taxes, than by the *ad valorem* system properly administered, yet when the system is loose in its organization my experience and observation has satisfied me that there can be much inequality in its operations. The most objectionable feature in our present *ad valorem* system, is that part which authorises or allows tax payers to put their own valuation upon their property. Heretofore, when the taxes of the State were very low and there was little or no temptation for persons to undervalue their property in returning it for taxation, this imperfection did not exhibit itself so much, but recently, since the State has been compelled to increase her taxes, the difference in the returns and of the amount of taxes to be paid has become greater, until this year the returns develop a degree of inequality unparalleled heretofore, and it is hoped that the Legislature will take some action to prevent such a state of things

in future. It is true, that, under our present system allowing persons to put their own value upon their property for taxation, there is some check to undervaluation, on account of the Receivers of Tax Returns being required to scrutinize "carefully" each return, and if he finds any property in the tax payer's return, returned to him "below its value" to assess a value on the same—which assessment is to stand, unless the tax payer calls for arbitrators, and in that case the assessment of the arbitrators is to stand as the proper return. But my observation has induced me to believe that this is not much of a check. But few of the Receivers of Tax Returns will stand up to their duty squarely in this particular, and where some do it and others do not, it only makes the inequality of taxation throughout the State greater. Most of the Receivers of Tax Returns are loth to call in question the return of their neighbor or friend, or of the wealthy or influential or powerful in their county, where their return is made under oath.

The result is, there is not only great inequality between the several counties, but even in the same county the inequality of returns is extraordinarily great. In some instances we find one planter returning his slaves at an average value of \$2,000, thereby paying a tax of \$20 on each of his slaves, while his neighbor who don't choose to put the "market value" upon his slaves, returns them at only an average value of \$1,000, and pays only a tax of \$10, on each of his slaves. One perhaps values his horses at an average of \$1,200 and pays \$12, while his neighbor puts his at only \$500, and only pays \$5. One values his stock hogs at \$30 average and pays a tax of 30 cents each on his hogs, while another values them at \$5, and only pays 5 cents each on his hogs, and so on with different items of taxation.

The want of Uniformity and the Inequality of the Tax on Slaves.

As slaves are a class of property of more uniform value throughout the State than any other, they generally selling in one part of the State for as much as they would sell for in any other part—for several years past, in calling the attention of your Excellency to the want of uniformity and equality of taxation, I have heretofore selected the returns of this class of property in the several counties in this State, by way of showing more fully the true state of things. After repeatedly preparing and exhibiting in my Reports, tables of the returns of all the counties in the State, showing the inequality of the tax upon slaves, and suggesting to the several Legislatures to adopt some plan to promote a more uniform and equal taxation, I concluded at last to attempt to secure a more uniform and equal

tax upon slaves at least, and consequently in 1862, drew up and submitted the following bill to the Legislature. In 1862 it was introduced into the House, but failed to pass. In 1863, the House adopted the general principles of the bill, but the Senate rejected it. Having for several years thought upon and considered this and other plans, and as I cannot fall upon or think of any other calculated to produce any thing like the same uniformity or equality as this, I now again present it for the consideration of your Excellency and the Legislature, and not only most urgently recommend its passage, but think it would be well to amend it, so as to authorise and require the several Inferior Courts to value at the same time all other taxable property except Solvent Debts, and land or real estate, houses, lots, mills, &c. The amount of solvent debts and money might be returned under oath as heretofore—and the Receivers of Tax Returns might be required to assess a value upon lands or real estate, houses, lots, mills, &c., said assessments to stand as the true return unless the tax payer or others objected, in which case the assessment to be determined by three disinterested persons acquainted with the nature of the property assessed.

The following is the bill in relation to the taxation of slaves.

A BILL

To be entitled an Act to equalize the tax on Slaves in the several counties in this State.

WHEREAS, From an exhibit in the Comptroller General's Report, it is clear that there is a great want of uniformity in the valuation of and inequality in the tax paid upon Slaves in the several counties of this State, for the purpose of equalizing as far as possible the tax on this class of property,

SEC. 1st. *Be it enacted by the General Assembly of the State of Georgia*, That it shall be the duty of the Justices of the Inferior Court, or a majority of them, in the several counties in this State, to assemble at their Court houses on the first Monday in February in each and every year, and place a valuation for taxation, upon all sound slaves, according to their ages, that is to say,

1st. They shall first place a value upon all children under one year of age.

2nd. And upon all children over one, and under two years of age.

3rd. Upon all over two, and under four years of age.

4th. Upon all over four, and under six years of age.

5th. Upon all over six, and under eight years of age.

6th. Upon all over eight, and under ten years of age.

7th. Upon all over ten, and under twelve years of age.

8th. Upon all Male Slaves over twelve, and under fifteen years of age.

9th. Upon all Female Slaves over twelve, and under fifteen years of age.

10th. Upon all Male Slaves over fifteen, and under eighteen years of age.

11th. Upon all Female Slaves over fifteen, and under eighteen years of age.

12th. Upon all Male Slaves over eighteen, and under twenty-five years of age.

13th. Upon all Negro Women over eighteen, and under twenty-five years of age.

14th. Upon all Negro Men over twenty-five, and under thirty-five years of age.

15th. Upon all Negro Women over twenty-five, and under thirty-five years of age.

16th. Upon all Negro Men over thirty-five, and under forty-five years of age.

17th. Upon all Negro Women over thirty-five, and under forty-five years of age.

18th. Upon all Negro Men over forty-five, and under fifty-five years of age.

19th. Upon all Negro Women over forty-five, and under fifty-five years of age.

20th. Upon all Negro Men over fifty-five, and under sixty-five years of age.

21st. Upon all Negro Women over fifty-five, and under sixty-five years of age.

Sec. 2nd. *Be it enacted*, That when the Inferior Courts shall have placed the value upon slaves as directed in the foregoing Section, they shall enter the same on their minutes, and immediately send a copy of the same to the Comptroller General's Office at Milledgeville.

Sec. 3rd. *Be it further enacted*, That on, or immediately after the first Monday in March in each and every year, the Comptroller General shall examine the returns of the Justices of the Inferior Courts assessing the value on slaves according to age, as directed by this Act, and after noting and consolidating all the returns received for each age, shall ascertain the average value throughout the State, in dollars, placed upon each age as is herein before enumerated, and he shall publish the same together with this act, in the Milledgeville papers for two months. The Comptroller General shall also embrace the same in his Annual Circular to the Receivers of Tax Returns; and the average value throughout the State, so ascertained, shall be deemed and held to be the value of each sound Slave in the State, of the different ages named except as to mechanics. In all cases when any Slave shall be a mechanic following his

trade, an additional value of fifty per cent. shall be placed upon the same by the Receivers of Tax Returns.

SEC. 4th. *Be it further enacted*, That all persons hereafter, in returning Slaves for taxation, be required to furnish the Receiver of Tax Returns with a list containing the ages of his, her, or their Slaves and their sexes, where any portion of this act requires the distinction to be made, and that the Receiver of Tax Returns, be, and he is hereby directed to place such valuation upon the same as is furnished him by the Comptroller General, in compliance with this act, except such as are mechanics following his trade, upon which he shall place an additional value of fifty per cent.

SEC. 5th. *Be it further enacted*, That the Receiver of Tax Returns, in assessing the value as directed in the foregoing section, shall not include any unsound or cripple slaves in such valuation, if objected to by the owner, agents, or persons making the return, but such owner or agent, or person making said return, shall be permitted, or be required to swear to the unsoundness or deformity of said slave or slaves, and also swear to its or their value.

SEC. 6th. *Be it further enacted*, That in case any tax payer shall have in his, her, or their schedule of slaves, any unsound or deformed slave or slaves which he objects to being valued at the regular valuation, he shall be required to take in addition to the usual oath, the following oath, viz: "You do further swear (or affirm as the case may be) that the Slave, (or Slaves) that you now object to being valued as other Slaves are valued, is (or are) unsound in health, or deformed, and is (or are) not worth as much as other Slaves of like age, and that said Slave (or Slaves) is (or are) not worth more than the valuation you have placed upon the same."

SEC. 7th. *Be it further enacted*, That the oath hereafter to be administered to the tax payers in this State shall be as follows: You do solemnly swear (or affirm as the case may be) that the account you now give in is a just and true return (including your list or statement as to the ages of slaves) of all taxable property, including solvent notes, bonds, open accounts, or other obligations for money on persons in other States, or of bonds of the Confederate States, or other States, or of bonds of companies of other States, or of shipping at sea, which you were possessed of, held or claimed on the first day of April last, or was interested in or entitled unto, either in your own right, or in the right of any other person or persons whatsoever, as parent, guardian, executor, administrator, agent, or trustee, or in any other manner whatsoever. And that the value you have affixed to it is a just and true valuation in Confederate Treasury Notes, to the best of your belief, and that

you have given in by number and district, to the best of your ability, all the wild and unimproved land you own in this State.

Sec. 8th. *Be it further enacted*, That it shall be the duty of the Comptroller General, on, or before the 15th January in each and every year, to have printed, and he shall send to the Justices of the Inferior Courts, in the form of a circular, a copy of this Act, together with a blank schedule to be filled up and signed by the Justices of the Inferior Court and returned to the Comptroller General's Office, showing the assessment or valuation by the said Justices, according to the herein enumerated ages of Slaves.

Now what would be the operations of this bill, were it to become a law? Let us, by way of illustration say that only three counties in the whole State, viz: Bibb, Jones and Baldwin made their returns of valuations to this office, and that the Justices of the Inferior Court of Bibb valued a negro fellow between 18 and 25 at \$4,000, the Justices of Jones valued the same at \$3,000, and the Justices of Baldwin valued the same aged negro fellow at \$2,000,—the three amounting to \$9,000. It will be seen that the average value of a negro fellow between 18 and 25 would be \$3,000. (And as no other counties made returns, the average of Bibb, Jones and Baldwin, would be the average throughout the State) Bibb, therefore being the most liberal county, would be brought down to Jones and Baldwin, that attempted to value a negro fellow far below its value, would have to come up to Jones, and each county would have to return their sound negro fellows between 18 and 25 at \$3 000 each, *and yet the aggregate tax would not be reduced*. Again, suppose Baldwin valued a small negro between 6 and 8 years of age, at \$800, Jones \$700 and Bibb \$600—the three amounting to \$2,100. It will be seen, again, that the average being 700, Baldwin would be brought down to Jones, in making her returns for taxation, while Bibb would have to come up to Jones, by returning her negroes between 6 and 8 years of age at \$700. And, as to the general average of slaves in the State, had this bill become a law last Winter, instead of Telfair now paying \$29 20 on her slaves, and Banks only \$10 14 on her slaves, Telfair and all other counties above the general average in the State would have been brought down in the neighborhood of \$17 61 the general average, and Banks and all others that returned under the general average would have been brought up and been made to pay in the neighborhood of the general average—and thus *there would have been an equality of taxation, without at all reducing the taxes*. It is true, the counties having the largest number of grown and valuable slaves, would pay a larger aver-

age value than those having more young and old and small negroes, but provided the old, middle aged and young negroes, had been equally divided among the several counties, the *value, or average value in each, would have been the same.*

But some may say, why not let the Legislature value them, or why not put a specific tax upon each slave, according to age, as some of the other States have done? Apart from the difficulty in getting 169 members, or a majority, to agree in the details as to the proper value to be placed upon slaves of different ages, &c., it would not be as satisfactory as the plan proposed by the bill, because the valuations of the Justices would be made at a later and at the latest period, only a short time before the returns of property are to be made, and slaves would then have the benefit of the rise and fall in property. It would be still more wrong to levy a specific tax upon slaves while we are raising more or less tax under the *ad valorem* system every year, for, in that case, slaves would either pay more or less tax than other property. This year, with a levy of one per cent. slaves pay an average tax of \$17 61. Now suppose that the Legislature levied as a specific tax an average of \$17 61 upon the slaves, and next year, the wants of the Government did not require half as much money to be raised, and we only levied a tax of half per cent. Here it will be perceived that slaves would pay double the tax of other property, and they would derive no benefit from the *ad valorem* system. Not the least merit, in the plan I propose is, that the *ad valorem* system is retained, and most of the property throughout the State will pay an average tax upon its well ascertained or market value.

As I have said that I thought perhaps the Legislature might amend this bill, by having other property valued by the Inferior Courts of the different counties, and the same rule applied, as is proposed to be applied to slaves, I would respectfully call the attention of your Excellency and the Legislature to table "F" in this Report, showing how other property has been valued and returned in the different counties in the State. It will be seen that great inequality exists as to other property as well as slaves.

Return of the names of Tax Payers to the Tax Receivers.

The law now requires the Justices of the Peace or the Road Commissioners to return to the Receiver of Tax Returns by the first of May, the names of persons in their districts liable to pay taxes. There is no penalty upon these officers for failure of duty. Tax Receivers complain to me that this duty is neglected in some instances by the Justices of Peace or Road Commissioners. To prevent this omission of duty, I think it would be well to annex some penalty for failure of duty.

The Income Tax Act.

Notwithstanding the language of the Income Tax act of the last Legislature is broad and clear enough to include "all persons" who had made "incomes by purchase or sale of ANY PROPERTY real or personal" from the 1st of April, 1863, to the 1st of April, 1864, yet it is evident from the following table of the counties and their returns, that *not half* of those who had no doubt made incomes by sale of property, have made any returns whatever. Notwithstanding the Income Tax from these counties is returned at \$3,195,217,-06, 15 counties, viz: Baldwin, Bibb, Butts, Chatham, Clark, Decatur, Fulton, Greene, Gwinnett, Hancock, Muscogee, Putnam, Richmond, Troup and Upson, returned \$2,895,211 55. And from what source comes most of this \$2,895,211 55? It is but fair to say that most of it comes from Factories and a few other large traders. That the owners of Factories and a few large traders if they make large profits, should pay a good tax may be all very correct, but it is not fair that thousands of others, who *sell* land, real estate, cotton, corn, provisions of all kinds, &c., &c., and who make *profit equal* (for the amount invested) to these Factories and traders, should make no returns at all. Take for instance the wealthy county of Columbia, with 769 property tax payers. She only returns four persons as having made *profits* by the *sale* of property over and above 8 per cent. *on its value on the 1st of April, 1863*, and these profits only amount to \$10,700. Taking into consideration the way land and other property went up between April, 1863, and April, 1864, the sale of only one plantation of 1,000 or 1,500 acres ought to have produced more profits than the whole amount returned. But is it reasonable to suppose that no more than four persons in the county of Columbia made profits over and above 8 per cent. on their capital, by the "sale" of "any property real or personal," between the times above specified? Is it not more reasonable to suppose that 150 persons made such profits taxed by the law? Take again the wealthy county of Harris, with her 1,021 property tax payers, that only returns 15 persons, as having made profits, and these 15 persons only making profits amounting to \$29,166. And Houston with her 1044 property tax payers that only returns 33 persons as having made profits over and above 8 per cent. and these profits are only put down at \$60,252. Is it not more reasonable to suppose that at least 150 or 200 persons in each of these counties have made taxable profits under the law. Does it not look strange that Coweta county with only 1,151 property tax payers should return 208 persons making taxable profits, Henry with 1,019 property tax payers 241 persons making taxable profits;

Elbert with only 878 property tax payers returning 180 persons making taxable profits, while Columbia only returns four, Harris fifteen and Houston 33 persons as making taxable profits.

Reference is had to these counties because they are all purely Agricultural counties, and they are here grouped together and compared, that your Excellency and the Legislature may see how differently this Income Tax Act has been construed and acted upon in the different counties—and that you may further see that so far from one-half of the persons liable to pay an income tax making a return, it is questionable if one-fifth have made their returns. It is true all of the Factories (except those in the enemy's lines) have been returned, and most of the large dealers or traders in merchandise, &c., in the counties generally have been returned, but I regret to say, that, I think there are thousands who are liable under the law that have made no returns. And why is this the case? I am sorry to say, that, in some of the counties, I have been informed, members of the Legislature have told their constituents that the Income Tax Act did not tax the farmer or planter who bought and sold plantations, or other persons who were not in the habit of buying and selling property, but it only taxed the general trader or speculator or those who bought and sold certain property for the purpose of speculation, &c. Now what says the Preamble and 1st section of the Act taxing net incomes, &c. They are as follows :

An Act to levy and collect a Tax on the net income and profits of all persons and corporate bodies, and net profits of all persons making incomes, by purchase or sale of any property, real or personal ; upon the net income of all Express Companies, Railroad Companies not exempt by their charters from taxation, Insurance Companies, Brokers, Auctioneers, all persons engaged in the manufacture of iron and salt, and cotton dealers, and upon all profits arising from the sale of goods, wares and merchandise, groceries and provisions ; also, on the income or profits of all persons and corporate bodies engaged in the manufacture of cotton and woolen goods ; in the tanning and sale of leather, and the manufacture and sale of any article made thereof ; and in the distillation and sale of alcohol or spirituous liquors from grain of any kind, or from any other article ; and to appropriate the same, and to punish all persons as may fail to give in their income or net profits, and for other purposes.

SECTION 1. *The General Assembly of Georgia, do enact, That all persons and bodies corporate in this State, all persons making income by purchase or sale of any property, real or personal, all keepers of hotels, inns and livery Stables, Express Companies, Rail Road Companies, not exempt by their charter from taxation, Insurance Companies, Brokers,*

Auctioneers; all persons engaged in the manufacture of salt; all persons engaged in the sale of goods, wares and Merchandise, Groceries and Provisions; all persons and bodies corporate engaged in the manufacture and sale of cotton and woolen goods, in the tanning and sale of leather, and in the manufacture and sale of any article made thereof, and all persons engaged in the distillation or sale of alcohol or spirituous liquors from grain of any kind, or from any other article, when they make a return of their taxable property, shall make a return under oath of the net income or profits, which he, she or they, may have made respectively in the sale or manufacture and sale of any of the articles above enumerated, and in the conducting of any of the business aforesaid, from the 1st day of April 1863, to the 1st day of April 1864, over and above 8 per cent on the capital employed in his business”.

Here it will be perceived that nobody is exempted, but that “*all persons*” or “*bodies corporate*” who “*SELL ANY PROPERTY, real or personal*”, shall pay a Tax, if he makes a profit of over 8 per cent. upon its value on the 1st of April 1863. But have they done it? Let the following table show:

INCOME TAX.

Table showing the number of property Tax-payers ; the number of Income Tax-payers, the Profits above 8 per cent, and the Tax on the same for the year 1864.

It may be asked, if the Act already passed will not insure a fair return of profits and net incomes, &c., what amendments may be necessary in future? My reply is, that, if the Legislature really intends to tax Farmers, Mechanics and others who do not make it *their business* to purchase and sell lands, goods, wares and provisions, it should state it more clearly by *naming* them as well as Hotel Keepers, Express Companies, Railroad Companies, &c., or *not name any particular class*. And I would also suggest that the clauses in the Act for this year, making a failure to return, a Penitentiary offence, be repealed—for it only weakens the force of the Act. No Tax Receiver will attempt to send a man to the Penitentiary because he *failed* to make his Tax returns; and as it becomes his duty to prosecute a person, who is found in default, many Receivers will not return a man in default, but will let him go “scot free” rather than prosecute and attempt to send him to the Penitentiary for not making his returns.

I am free to confess, that for the past two or three years, I have felt satisfied that there has been so much fraud and hard swearing, or to say the least of it, so many different opinions relative to Income Tax Returns, I have but little partiality for the system. So far as my observation extends, only a few whose business was such they could not hide, if they would, have paid most of this Tax. The Factories, the regular business man, or trader, and now and then an unsophisticated honest man, not a regular trader, pays the tax, but the real sharper, or monopoliser, and speculator who does no *regular business*, but buys up produce, &c., and holds it up for high prices, gets off by dodging the Receiver, or by claiming to have made no profits above 8 per cent. Under all these circumstances, then, I think all the taxes would be much more equitably levied if placed entirely upon the *ad valorem* system. If, however, the Legislature should deem it best to continue to raise revenue from Income or profits, I would respectfully suggest that it take up the subject in the early part of the session, so as to enact more perfect Acts than those of 1863 and 1864.

The Tax on Banks.

By an act of the 19th Dec. 1817, Banks were required to pay 31 1-4 cents on the \$100 of Capital Stock *paid in*, until 1841, when an Act was passed increasing the tax 25 per cent. making the tax on Banks 39 1-16th cents on the \$100 of Capital paid in. Thus in 1856 and 1857, when individuals paid 6 1-2 and 7 1-2 on the \$100, the Banks paid 39 1-16th cents on the \$100. But in December 1863, it appearing evident that individuals or the tax payers generally, would have to pay about double the tax of Banks, unless the tax on Banks was increased, the last Legislature attempted to ^{for the} remedy this inequality, by passing the following section, in the Act providing for the support of Indigent Soldiers' Families for the year 1864, viz :

SEC. 10. *Be it further enacted*, That the several banking corporations, and all incorporated companies using banking privileges of this State, are hereby subject and liable to pay such an *ad valorem* tax upon their capital stock, assets, real and personal property, as is laid upon the taxable property of the tax-payers of this State; said payments to be made directly to the Comptroller General of this State; and in assessing said taxes, the Comptroller General shall levy the same tax upon said corporations as is levied upon all other property; *provided*, that the taxes raised under this section shall become a part of the appropriation made by this act. —[*Sec Act of Dec. 14, 1863.*

In thus attempting to put the Banks upon an equality with tax payers generally, the Banks contend that the Legislature overshot the mark and taxed them wrongfully. Had the Legislature merely taxed the "Assets and real and personal property" of the Banks, this would have been in accordance with the tax "laid upon the taxable property of the tax payers of this State"—it would only have taxed the Banks upon the *property* they *owned*, and I think this would have been right. But when the Legislature also taxed the Capital Stock of the Banks, it also taxed a part of what they *owed*—it taxed a part of their "*indebtedness*." And in *this*, I think the Banks have been wrongfully taxed. Then Banks are, by law, required to keep their Capital Stock intact, to do business or, to loan money, &c., and the "Assets, real and personal property, held by the Banks are *but the proceeds* of their *Capital Stock*, the circulation of their bills and such deposits as they may have on hand, and the Banks hold these "Assets, and real and personal property" to pay the Capital Stock, or bills in circulation, and deposits, which in every instance largely exceeds the Capital Stock originally paid in. Therefore if the Assets be taxed I hardly think the Capital Stock ought to be taxed. It would be about as fair to tax the amount of circulation of its bills.

and the deposits in the Banks, as to tax the Capital Stock, for the "Assets and real and personal property" of all Banks proceed from these items.

The tax laws of this State do not permit the Banks or others to seek relief through the Courts—on the other hand, if the Banks suffer themselves to be declared in default by the Comptroller General, and that officer should issue an execution against any one of them, their charter is declared forfeited by the 801st section of the Code. Under this state of things, the Banks having made their returns and appealed to your Excellency to suspend the collection of said tax, and your Excellency having directed me to suspend until the meeting of the Legislature the collection of the tax on the Capital Stock of the Banks, and as I have been notified that they will look to the ensuing Legislature for relief, as one intimately acquainted with and connected with the subject, I have deemed it but proper to allude to it in the manner above.

Undervaluation of Property.

Under the present tax laws the Comptroller General has no authority to have returns of property taken over again, where a Receiver of Tax Returns sends his Book to this office, with property given in far below its value. The only remedy is in the 839th section of the Code, which authorizes your Excellency to dismiss from office "any defaulting Tax Collector or Tax Receiver failing or refusing to do their duty." *In case this is done, the whole return goes by the board, and another appointment is required to be made.* The Receivers of the counties of Monroe and Stewart having made their returns, and these returns showing the property of their counties to be returned at only about half the value of property returned in most of the other counties in the State, your Excellency felt it to be your duty to vacate the commissions of said officers and ordered the returns to be taken over again—and but for the State being invaded, &c., I should have advised your Excellency to dismiss from office several others, who, from their returns, seemed to know but little of the market value of property. But, as many of these delinquencies, in permitting property returned below its market value, result more from a want of proper knowledge of the law and their duties than from a disposition to act corruptly or do wrong, and as a dismissal from office is rather a harsh punishment to one honestly trying to do his duty, and yet fails in the first instance to come up to the law, I would respectfully suggest that the law be so amended as to authorize the Governor or Comptroller General, if they think proper, in case a Receiver does not make proper returns, to require him to take them over again, instead of dismissing him from office.

Annexed, will be found my report to your Excellency, in August last, in relation to the tax returns of Monroe and Stewart, and other counties, and the action of your Excellency and this office in relation to the same.

All of which is respectfully submitted.

PETERSON THWEATT,
Comptroller General.

*In relation to the Tax Returns of Monroe and Stewart counties,
in 1864.*

COMPTROLLER GENERAL'S OFFICE, }
Milledgeville, Aug 23, 1864. }

His Excellency, Joseph E. Brown:

SIR:—In looking over the returns of the various Receivers of Tax Returns, lately received at this office, I regret much to say, that I discover that there will be a degree of inequality in the levying and collection of the taxes of the State this year, truly mortifying and disgusting to every lover of fair play. In many instances, this has been produced by the various diversity of opinion of tax payers, governed, no doubt, in many cases, by self-interest or a desire to pay as little tax to the Government as possible; and in other instances governed by a want of proper knowledge of the value of property by tax-payers. But the law having required the Receivers of Tax Returns to learn the value of property generally before receiving returns, or rather it having made it the duty of this officer to scrutinize each return "carefully," and if in his judgment he should find the property embraced in the return, or any portion of it, returned "*below its value*," to "*assess and value*" it at once, &c., and unless arbitrators reversed his valuation, it was to stand: had all the Receivers of Tax Returns in the various counties performed their duty faithfully, much of this inequality would not have existed. There is *prima facie* evidence that a very large number have not come up fully to the law, while there is the strongest kind of evidence that some of them are either incompetent and unfit to hold the office of Receiver of Tax Returns, or they have grossly (if not intentionally) neglected their duties under the law. The greatest dereliction of duty I find in the large and wealthy counties of Stewart and Monroe. While the *increased* returns of the value of property since 1863, has been, in the whole State, from 85 to 90 per cent., the county of Stewart only shows an increase of a fraction over 23 per cent., and Monroe only a fraction over 12 per cent.—the former only showing an increase in the value of *taxable* property of \$2,840,533, when it ought to have been \$10,266,642, and the latter showing only an increase in value of taxable property of \$2,051,712, when it ought to have been \$14,433,805. The county of Stewart, therefore, by the neglect of duty of its officer, or carelessness of its people generally, depriving the State of about \$74,000 of tax justly due from it; and the county of Monroe, from the same cause, depriving the State of about \$123,000 due from it—provided these counties are only required to pay on their property the average increased value in the whole State. But if we require Stewart county to pay in accordance with the counties surrounding her, she would be properly due the State about \$92,000 more than she will pay, if the present return be permitted to stand, for the counties of Chattahoochee, Marion, Webster and Quitman, immediately around her, collectively average more than 100 per cent. upon last year. The average value of slaves in these counties collectively is \$1,974, while the average value of slaves in Stewart is but \$930. The average value of slaves in the whole State (from the returns already received) is about \$1,761, while the average value of slaves in Monroe is but \$1,176. The average value of slaves in the county of Telfair is \$2,920. Thus it will be seen, that while the little county of Telfair, a pine woods county whose lands are not very productive, is required to pay \$20 20 for each slave, because her Tax Receiver and her people attempted to come up in good faith to the requirements of the law, the counties of Stew-

art and Monroe, whose lands are about the best and most productive in lower and middle Georgia, are made to pay, one \$30 39 on its slaves, and the other \$11 76 on its slaves. The county of Telfair paying more than three times as much as the county of Stewart on the same kind of property, and nearly three times as much as the county of Monroe. Surely this disparity in the payment of taxes ought to be corrected, if possible. The county of Union makes nearly as bad a showing as Monroe, and Stewart, its increase being only about 26 per cent., and its slaves only average ~~ing~~ \$1,021. But when it is recollected that this county joins part of East Tennessee and has been visited now and then for the past twelve or fifteen months by the enemy, tories, &c., there is some excuse for their returns. But there is no excuse for the returns of Monroe and Stewart, and but little, if any, excuse for the low returns of slaves in Lincoln, the average value being only \$1,074; or Jefferson, the average value being only \$1,067; or of Banks, the average value being only \$1,014; although the general return of these counties is a little better, being from 40 to 50 per cent., over the return of last year.

While then, from the returns received, I think the State would be benefitted next year at least, by removing from office a respectable number of these officers, who seem not to have complied with the law, in raising the value of property, when they found it returned "below its value," yet it is difficult, in most of the cases, to decide positively as to *their* neglect of duty; but the falling off is so great in both Stewart and Monroe counties, and the evidence so strongly corroborates the belief that the Receivers of Tax Returns in these counties have trifled with and neglected the law, in receiving the returns of property, that I think it would not be wrong to declare their returns a *failure*, and to remove them from office, and have the returns taken again for these two counties—even should your Excellency, from public necessity, deem it proper not to go further, and dismiss from office others, and have their returns, too, taken over again.

Very Respectfully,

PETERSON THWEATT.

EXECUTIVE DEPARTMENT,
Milledgeville, August 23d, 1864.

Upon the within statement of the Comptroller General, I hereby reject the returns made in Monroe and Stewart counties, as made in accordance with the requirements of the law, and I hereby order that the commissions of the Receivers of Tax Returns of both of said counties, be, and the same are hereby vacated, for failure to do their duty; and it is further ordered, that the Inferior Court in each of said counties proceed to appoint another person as Receiver of Tax Returns, and that the person so appointed proceed immediately to take the tax returns for said county, in conformity to instructions issued by the Comptroller General, under the law.

JOSEPH E. BROWN.

COMPTROLLER GENERAL'S OFFICE,
Milledgeville, Aug. 23, 1864.

To the Justices of the Inferior Court of Stewart County:

GENTLEMEN:—Enclosed you will find my report to the Governor relative to the failure of duty of the Receiver of Tax Returns of Monroe, Stewart, and other counties, and enclosed also you will find the order of the Governor, removing from office the Receiver of Tax Returns of Monroe and Stewart counties, in accordance with the requirements of the 839th section of the Code, and ordering the returns for these counties to be taken over again. By the 841st section of the Code, it is made the duty of the Justices of the Inferior Court, at this time, to fill these vacancies. It is hoped that your honorable body will immediately fill the vacancy in your county, and notify this office when the necessary instructions and books will be sent the officer appointed by you. You will take bond for about \$120,000, that being about half the amount that ought to be collected from Stewart county under an assessment of one per cent., if her people should give in their property according to the *average* return of the other counties in the State.

And that your honorable body and the people of your county may see how your Receiver of Tax Returns, and the Receiver of Tax Returns of Monroe county, have discharged their duties, I have concluded to furnish you, below, with the returns,

PART I—COMPTROLLER GENERAL'S REPORT. 41

last and this year, of the counties adjoining and surrounding the counties of Monroe and Stewart, in relation to two items of taxation, viz : Slaves and Land:

Returns of Land—Average Value per Acre.

Counties.	1863.	1864.	Increase on 1863.
Butts.....	\$6 76	\$11 73	73 per cent.
Bibb.....	4 21	7 78	84 "

Webster.....	8 93	17 03	90 "
Average increase.....			83 per cent.
Monroe.....	8 49	10 20	20 per cent.—Rejected.
Stewart.....	7 93	11 70	47 " —Rejected.

Return of Slaves—Average Value in each County.

Counties.	1863.	1864.	Increase on 1863.
Butts.....	\$ 87 8	\$1 188	68 per cent.
Bibb.....	97 4	1,952	109 "
Crawford.....	860	1,379	58 "
Jasper.....	981	1,790	61 "
Jones.....	828	1,634	98 "
Pike.....	953	1,891	98 "
Spalding.....	758	1,511	99 "
Upson.....	1,007	1,962	94 "
Chattahoochee.....	864	1,753	102 "
Marion.....	956	1,999	109 "
Quitman.....	899	2,086	132 "
Webster.....	963	1,959	103 "
Average increase.....			93 per cent.
Monroe.....	983	1,176	19 per cent.—Rejected.
Stewart.....	804	930	15 " —Rejected.

From the returns thus far received, the average value of slaves throughout the State is about \$1,761—but for the further information of yourselves and others, I give you the following counties that have returned their slaves, big, little, old and young, at an average value of more than \$2,000, viz :

Baker,	\$2,024	Henry,	2,028	Telfair,	2,926
Brooks,	2,384	Lee,	2,112	Thomas,	2,466
Clarke,	2,245	Meriwether,	2,195	Troup,	2,012
Cline,	2,149	Quitman,	2,086	Twiggs,	2,156
Colquitt,	2,272	Sumter,	2,228	Wilcox,	2,105
Coweta,	2,075	Talbot,	2,209	Worth,	2,139
Fulton,	2,296	Tattnall,	\$2 987		
Glascock,	\$2,429	Taylor,	2,070		

When you shall have read this paper, please hand it (or a copy of the same) to the Receiver of Tax Returns you may appoint, that he may take it with him, while performing his duties, and explain, if necessary, to the people of your county, why the Governor has felt it his duty to reject the returns of the former Receiver, and why he has ordered the returns to be taken over again.

Very respectfully,

PETERSON THWEATT.

The above report and instructions were also sent to the Justices of the Inferior Court of Monroe county.
